Design Brief

Xercise4Less is a budget gym chain offering the biggest and best facilities at the lowest membership price. They are fast becoming known as "The People's Gym" as they are committed to providing the best facilities to everyone at the lowest possible price. Maintaining that keeping fit and exercising should be available to all

A1 Engineering Solutions delivered and completed a full turnkey HVAC package from Design and Project Management to Installation of the new HVCA (Air Conditioning) System at the Xercise4Less fitness centre in Swansea.

Internal Fan Coil Unit by Mitsubishi Electric

The HVAC system installed was a Mitsubishi Electric VRF System, supplied by A1.

A1 are an accredited installer of MEUK equipment.
